

PROJECT DETAILS

Boulderscape Finish
Diamond Bar Blend

Color Scheme
Light Earth Blend

Shotcrete Thickness
12.5 inches

Average Relief
4 inches

Retaining Wall System
Multi-Tiered Soil Nail Wall

Shotcrete Mix
4400 PSI

PROJECT OVERVIEW Large plant pockets and heavy planting yields a softening effect on large retaining wall facings. In this case, a three foot deep planter shelf was installed between the dual retaining systems to provide bountiful space for trees and plant-life. Water emitters were also installed within the pocket area to provide low-maintenance irrigation for the landscaping.

FEATURES AND BENEFITS

30 - 40% cheaper than form-liner finishes

50% faster to install than form-liner finishes

No Repetition. Each finish is site-specific and highly customized

Waste Elimination. BSI Finishes do not require any type of form-liner fitting
